## PROFILE

I have learned frontend development skills including HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, and React to build modern, responsive, and interactive websites. Additionally, I have experience in digital marketing to help promote websites effectively. Currently, I am starting to learn backend technologies like MongoDB and Express.js to become a full-stack developer. I am dedicated, quick to learn new skills, and passionate about creating complete web solutions.

## WORK EXPERIENCE

- Student & Developer
- University of Peshawar, Peshawar, Pakistan
- 2022 - Present
- Developed complete projects and a personal portfolio using HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, and React.
- Designed responsive and modern web applications showcasing strong front-end development skills.
- Implemented digital marketing strategies including branding, content creation, and social media promotion.
- Currently expanding skills by working on backend development to build full-stack applications.
- Completed practical projects involving UI/UX design, frontend frameworks, and digital marketing campaigns.
